

To: The Federal Communications Commission

Dear FCC,

Regardless of the data you may have on hands, majority of people want a democratic country and, therefore, a democratic free media. Journalism is no longer free under the consolidated media monopolies. Please, do what is in you power to protect the interests of citizens of America by at least holding an official public FCC hearing and transparent debates. As a part of government you represent the citizens of this country, not corporations. Please, do not forsake your countrymen.

Thank you,  
Elena
